

May 12, 1981

Dear Members:

We are all looking for a good season this summer.

The 1980 summer weed cutting program was very successful. Many thanks to all of you who made it possible. Although state and federal audits are not complete yet, we are confident that their findings will be favorable. Our report shows expenditures of nearly \$11,200, of which \$3,523.00 was considered expenditures "in kind" i.e. donated labor, gas, etc.

We are preparing a new grant request for this summer. Again, we will need your cooperation and support. If each of us does our part this summer, we will be able to obtain sufficient funds from the state to continue our program. We will need machine operators, rackers and collectors. Volunteer a small amount of your time to the association.

We will be holding our annual meeting on the third saturday of July (July 18th), at the West Glover Church. As usual, it will be "pot luck" supper beginning at 6:00 p.m. Your attendance is essential as we are electing officers. Several Committee reports and Executive recommendations will be submitted for your consideration.

The Membership voted to increase the dues for 1981 to \$10.00 per family. This fee provides the family with two votes on an issue which requires a vote of the Membership. You are asked to please send your dues to:

Mary Martin
West Glover, Vermont 05875

Make check payable to: Lake Parker Association

Anyone interested in becoming an officer of the Association, please call any of the existing officers for more information.

We plan to have another "Flea Market" this summer. (Date to be announced) Don't forget - bring all valuable possessions when you come to camp.

We regret to report two break-ins. The camps broken into were Rogers and Pugliese's. No extensive damages were reported.

The enclosed Chronicle clipping brings you up to date concerning the weed situation.

Respectfully,

THE LAKE PARKER ASSOCIATION OFFICERS

Gerald Anderson, President
Floyd Taylor, Vice President
Dale Boutin, Secretary
Mary Martin, Treasurer
